

Meet Yanis

**POSITIVE
IMPACT
RATING**
FOR BUSINESS SCHOOLS

**“ The PIR helped us
assess our ongoing
projects against the
students' needs. ”**

My studies

I am currently in my **2nd year** of **Masters in Management and Administration** at Grenoble Management School.

My activities

I am the **President of ImpAct**, a student society gathering over 90 students based at Grenoble Business School and committed to sustainability issues.

Why the PIR?

UNDERSTAND STUDENTS' PERCEPTION

Collect the students' opinions on the school's policy, projects, and initiatives.

EVIDENCE TO SUPPORT OUR CLAIMS

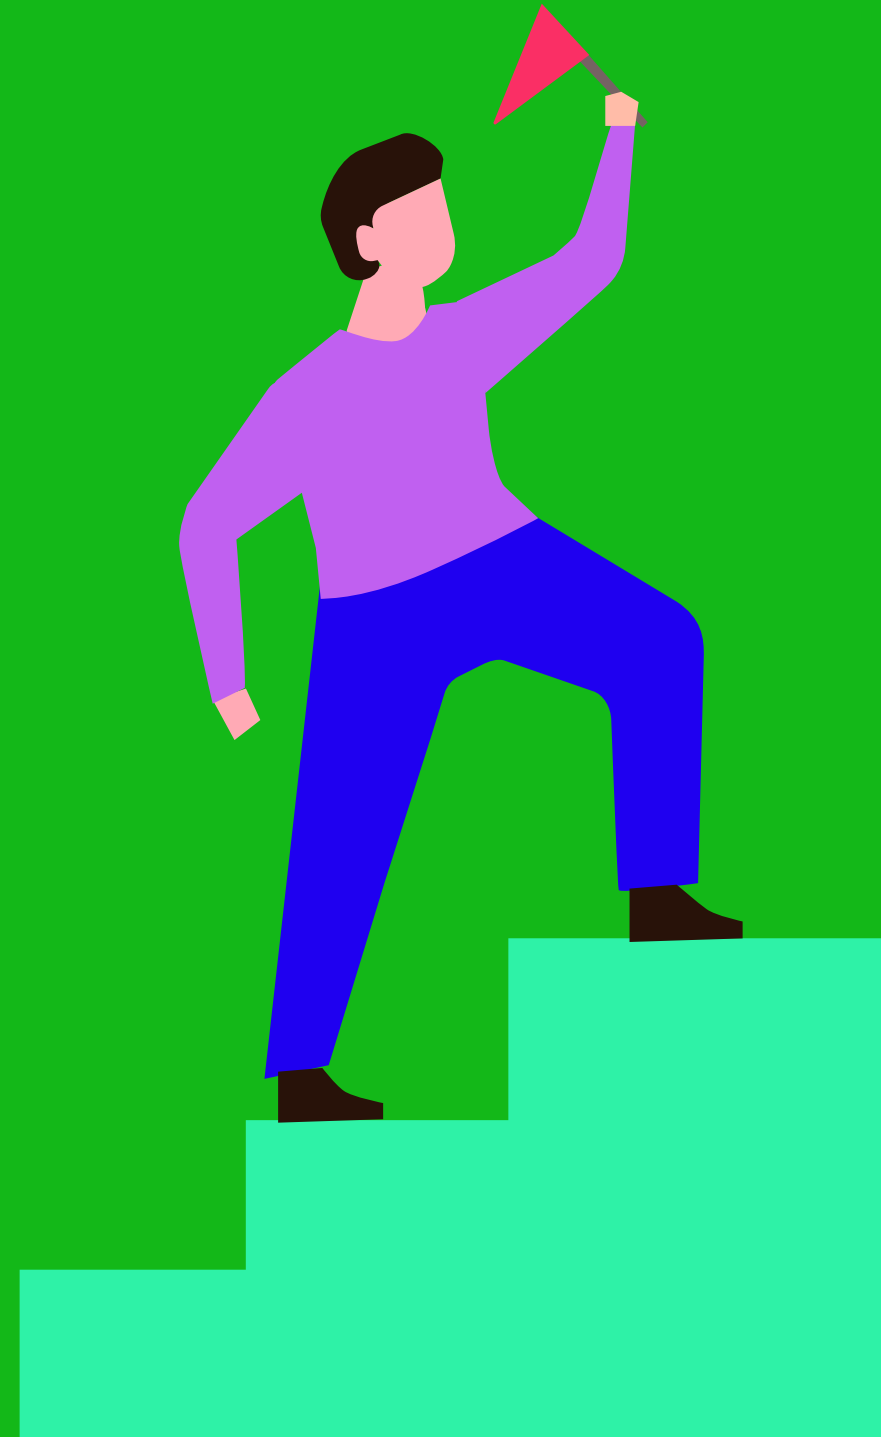

The quantitative and qualitative material the PIR provided us helped us advocate for change in our curriculum.

TO ESTABLISH A COMMUNICATION CHANNEL WITH ADMINISTRATION

How did I get involved in the PIR?

BEING ASKED BY STAFF

Our school's administration asked us whether we would be interested in leading on this tool and we accepted the challenge!

How did we get responses?

VALUED THEIR VOICE

Our key message was that responding to the survey was a way to value their vision of how sustainability issues should be dealt with in the School.

RELIED ON WORD OF MOUTH

This works better than all methods!

SHARED A FEW IDEAS ON WHAT YOU'D LIKE TO DO WITH THE RESULTS

Students got motivated to reply to the survey when we explained to them what we were to do with the results

What did I get out of the PIR?

The PIR helped us understand which projects were meaningful in the students' minds and should be continued.

How did we analyse the results?

We had the first discussion about the results with the administration and within the Sustainability Committee.

Next steps

Action 1

Participate in the next PIR
Edition

Action 2

Compare results between the
Editions

Action 3

Assess existing projects
against PIR results

My final tip

Talk about it as much as you can!

And open, from the very start, a discussion with students of how you could use the results.
